## Council Resolutions

### Executive Summary

The Matjhabeng Local Municipality Annual Budget for the 2017/18 financial year is compiled in accordance with the prescripts of the Municipal Finance Management Act 56 of 2003, Municipal Budget and Reporting Regulations and National Treasury's MFMA Circulars.

The municipality did a review of the service delivery priorities as part of this year's planning and budget process, therefore the development of the Annual Budget for the 2017/18 financial year was informed by the key service delivery priorities. A review of expenditure was also undertaken so to eliminate spending on non-core activities and the implementation of MFMA Circular 82. Furthermore the municipality entered into payment arrangements with bulk service providers, Eskom and Sedibeng Water.

The main challenges experienced during the compilation of the 2017/18 MTREF can be summarised as follows:

- The ongoing difficulties in the national and local economy;
- Aging and poorly maintained water, roads and electricity infrastructure;
- The need to reprioritise projects and expenditure within the existing resource envelope given the cash flow realities and declining cash position of the municipality;
- The increased cost of bulk water and electricity (due to tariff increases from Sedibeng Water and Eskom), which is placing upward pressure on service tariffs to residents. Continuous high tariff increases are not sustainable - as there will be point where services will no-longer be affordable;
- The facilities of the municipality is not properly maintained due to the low revenue collected on the rental of these facilities this can largely be attributed to the tariffs not being cost reflective.
- Wage increases for municipal staff that continue to exceed consumer inflation, as well as the need to fill critical vacancies;
- Affordability of capital projects – original allocations had to be reduced and the operational expenditure associated with prior year's capital investments needed to be factored into the budget as part of the 2017/18 MTREF process; and
- Availability of affordable capital/borrowing.

The Operational grant allocation for the 2017/18 financial year is R 396 776 000. The Equitable Share allocation is R 393 631 000, Finance Management Grant is R 2 145 000 and the EPWP is R 1 000 000. The Municipal Systems Improvement Grant will be an indirect grant as from the 2017/18 financial year.

In view of the aforementioned, the following table represents a consolidated overview of the proposed 2017/18 Medium-term Revenue and Expenditure Framework:

**Table 1**

	Budget 2017/18 R'000	Budget 2018/19 R'000	Budget 2019/20 R'000
<b>Total Revenue Budget</b>	R 2 323 923 750	R 2 423 923 750	R 2 694 683 419
<b>Total Expenditure Budget</b>	R 2 315 668 898	R 2 432 869 031	R 2 735 656 652
<b>Surplus / (Deficit)</b>	R 164 470 852	R 111 598 500	R 88 586 167
<b>Total Capital Budget</b>	R 181 216 000	R 121 038 591	R 129 559 400

The total revenue is inclusive of all the revenue due to the municipality which includes operating and capital grants.

Total operating expenditure for the 2018/19 financial year has been appropriated at R 2 432 869 031 and translates into a budgeted surplus of R 111 598 500. The operating surpluses will be used to fund capital expenditure and to further ensure cash backing of reserves and funds should the municipality receive all monies budgeted for.

The total capital budget for the MTREF is R 165 432 744 for the 18/19 financial year and R 175 027 843 for the 19/20 financial year.

### **Operating Revenue Framework**

For the municipality to achieve the set targets in terms of service delivery it needs to generate sufficient revenue. The financial state of affairs of the municipality necessitates difficult decisions to be made in terms of tariff increases, cost containment measures and balancing expenditure against planned realistic revenues. Efficient and effective revenue management is thus crucial.

The municipality's revenue strategy is built around the following key components:

- National Treasury's guidelines and macroeconomic policy;
- Growth and continued economic development;

- Efficient revenue management, which aims to ensure a 90 per cent annual collection rate for property rates and an average of 85% per cent for other key service charges;
- Electricity tariff increases as approved by the National Electricity Regulator of South Africa (NERSA);
- Achievement of full cost recovery of specific user charges especially in relation to trading services;
- Determining the tariff escalation rate by establishing/calculating the revenue requirement of each service;
- The municipality's Property Rates Policy approved in terms of the Municipal Property Rates Act, 2004 (Act 6 of 2004) (MPRA);
- Increase ability to extend new services and recover costs;
- The municipality's Indigent Policy and rendering of free basic services; and
- Tariff policies of Matjhabeng Local Municipality.

#### Revenue Raising Strategy

- ✿ Implementation of the Revenue Enhancement Strategy by increasing the revenue base of the municipality.
- ✿ Rejuvenate disconnection project (Operation Patala) with a revenue protection unit in place to monitor reconnections and disconnections.
- ✿ Installation of new meters in unmetered areas and replacement of faulty meters.
- ✿ Implementation and installation of Automated meter reading (AMR) meters.
- ✿ Review budget related policies
- ✿ Implementation of the Valuation Roll
- ✿ Review the tariffs for services rendered to ensure that tariffs are cost reflective.
- ✿ Obtain long-term financing in terms of Section 46 of the MFMA
- ✿ Recovering of outstanding amounts owed by Government Department.

Table 2 (Table A4 Budgeted Financial Performance – revenue and expenditure) reflects the operating revenue which excludes the capital transfers and contributions which is in line with the Municipal Budget and Reporting Regulations. The inclusion of these revenue sources will distort the calculation of the operating surplus/ (deficit).

The main sources of revenue are property rates, service charges and transfers recognized as operational.

### Property Rates

Property Rates increased to R 279 252 170 in the 2017/18 financial year. The property rates tariffs will increase with 6.4% in the 2017/18 financial year, this increase is guided by MFMA Circular 85. An amount of R 32 850 000 is budgeted for revenue foregone. Revenue foregone can be defined as any income that the municipality is entitled to by law to levy, but which has subsequently foregone by way of rebate. The total amount inclusive of revenue foregone is therefore R 312 102 170. The 2015/16 audited amounts were used for the determination of the 2017/18 property rates increase and not the 2016/17 budgeted amount. The 16/17 projections for the remainder of the year was used to determine the increase. The collection rate on property rates is set at 95%, this target was set based on the development of the financial recovery plan and the revenue enhancement strategy as well as the past collection trends. The municipality also reviewed its budget related policies to ensure optimal collection of revenue due to the municipality. The municipality also envisages disposing of land for the purposes of development which will in turn result in property rates levied against the developments.

### Service charges

The service charges for the 2017/18 budget is R 1 197 387 205. Electricity revenue is increased with an overall average of 1.88% which is in line with the approved NERSA guidelines. Water revenue is

increased to R 343 073 599 in the 2017/18 financial year. The 2015/16 audited figures and the projections on the 16/17 actual revenue was used during the calculation of the water increase and not the 2016/17 budgeted amount. Sanitation and Refuse service charges increase with 6.4%, this increase is in line with the CPIX as prescribed in MFMA Circular 85 and 86.

### **Operational Transfers and Grant receipts**

Transfers recognized as operational receipts is the second largest revenue source totaling and amount of R 396 776 000 and increased from R 388 792 000. The Equitable share allocation is a grant which supplement the municipality's own revenue for the provision of the necessary basic level of services to each poor household within their jurisdiction. The annual Division of Revenue Act publishes the equitable share allocation. The Municipal Systems Improvement Grant (MSIG) is classified as an indirect grant as from the 2016/17 financial year.

### **Other Revenue Sources**

Other revenue sources consist of rental of facilities and equipment, interest earned, fines, agency fees, gains on disposal of assets and other revenue.

- Gains on disposal of PPE  
The municipality intends to dispose of assets during the 2017/18 financial year and has already started with the process. The projected revenue from the disposal of assets is R 100 000 000. This projected revenue will be utilized as a source of funding for capital projects.
- Other Revenue  
Included in other revenue of R 155 million is income from bad debts. The municipality projects to recover income from bad debts of R 100 million. The projection is informed by the current the improved credit control and debt collection action as well as the implementation of the revenue enhancement strategy.

### **Proposed Tariff Increases**

Tariff setting is a pivotal and strategic part of the compilation of the budget. During the revision of the tariffs the local economic conditions, input costs, the macro-economic forecasts as prescribed by MFMA circulars and the affordability of services were taken into account to ensure financial sustainability. The municipality also participated in a tariff setting workshop which was presented by the National and Provincial Treasury.

The table below provides information on the proposed tariff increases for the service charges. The average tariff increase for rates will be 6.4%. The estimated tariff increase for water will be 6.1% and electricity will be increased with an overall average 1.88%. The tariff increases for sewerage and refuse will be at 6.4% which is in line with the CPIX.

<b><i>Tariff increases – Revenue 2017/18</i></b>	
<b>Revenue category</b>	<b>Average tariff increases</b>
Rates	6.4%
Water	6.4%
Electricity	1.88%
Sewerage	6.4%
Refuse	6.4%

The general tariffs will be increased with 6.4%.

The municipality commenced with the implementation of the winter and summer tariffs for electricity in the 2014/15 financial year. A comprehensive tariff study was performed on the electricity tariff to ensure full cost recovery. The proposed overall average tariff increase for electricity will be at 1.88% as per the CPIX. The municipality will continue implementing the winter, summer tariff as well as Inclining Block Tariffs (IBT) during the 2017/18 financial year as well as the outer years.

The municipality however still experience challenges in performing a fully cost reflective study on other tariffs. Therefore in considering the drafting of the budget in the 2017/18 financial year our tariffs must be cost reflective notwithstanding the CPIX and regulations by National Treasury. This is in consideration of improving revenue collection of these facilities as well as the quality of services to be provided by the municipality. To this extent all departments of the municipality will be required to evaluate their tariffs so that they are cost reflective and market related. The cost reflective tariffs will be phased in.

**Employee Related Cost:** The salary budget is **R 663 million**. The collective SALGBC agreement has come to an end, salary increases have been factored into this budget at a percentage of approximately 7% for the 2017/18 financial year,

However, not all vacancies have been filled. This has an adverse impact on service delivery. If all positions were to be filled, the salary figure would be closer to 50% of total expenditure. This would clearly be unaffordable to the municipality. However, there are critical positions that would have to be filled. Provision is made for a 7% salary increase and then only critical vacancies are budgeted for.

**Bulk purchases:** The supply of bulk services is budgeted at **R 880 million**. Bulk purchases are directly informed by the purchase of electricity from Eskom and Sedibeng Water. Bulk services suppliers Eskom and Sedibeng will increase their tariffs with 2.2% and 1.88% respectively. These increases were incorporated in the projections for bulk services expenditure. The municipality entered into payment arrangements with its bulk service providers of which the proposed terms of payment were capitalized in the bulk purchases.

**Repairs & maintenance:** The municipality must ensure the health of our asset base by increasing spending on repairs and maintenance. Repairs and Maintenance relates to service backlogs and upgrading of infrastructure **10.67 %** of total expenditure has been allocated to repair and maintenance.

**Depreciation and Asset Impairment:** The municipality adopted the amendments of GRAP 17 for the first time in the 2012 annual financial statements. The provision for depreciation and asset impairment has been informed by the Municipal Asset Management Policy. The projected depreciation is lower than the actual, the municipality will implement a phase in approach to ensure that the total depreciation and asset impairment is covered over the MTREF.

**Debt impairment:** The provision of debt impairment for the 2017/18 financial year equates to R 70 million based on the average collection rate of 85% for services and 95% for property rates. While this expenditure is considered non-cash flow item, it informed the total cost associated with rendering the services of the municipality, as well as the municipality's realistically anticipated revenues.

**Finance Charges:** Finance charges consist of the repayment of interest on outstanding creditors. Finance charges amounts to R 127 million for the 2017/18 financial year. The projected finance charges is to cover the interest charged on outstanding bulk service providers (Eskom and Sedibeng). The municipality entered into payment plans with both bulk service providers to settle the arrears.

**Contracted Services:** This group of expenditure was critically evaluated during the compilation of the 2017/18 budget. In the 2017/18 financial year this group of expenditure totals R 68 million as compared to the R 80 million in the 2016/17 financial year. The mSCOA implementation is included in this group of expenditure.

**Other Expenditure:** Other expenditure consist of various line items relating to the daily operations of the municipality. The other expenditure is budgeted at R 115 million in the 2017/18 financial year.

#### **Cost Containment Measures**

The President announced the cost-containment measures in the State of the Nation address and it was re-emphasised by the Minister of Finance during the Budget Speech. It must further be noted that MFMA Circular 58, 66, 70, 72, 74 and 75 on cost containment measures are still applicable with regard to curbing of non-priority spending. This group of expenditure has also been identified as an area in which cost savings and efficiencies can be achieved as per the financial recovery plan.

The municipality has already embarked on the process of the implementation of cost containment measures. On 24 April 2015, Council resolved that a Financial Recovery Plan should be developed and that Cost Containment Measures should from part of the plan. On 20 May 2015 the Financial Recovery Plan containing the cost containment measures was tabled in Council. The cost containment measures involved the following cutting of cost and or elimination of cost on the following items:

1. Catering for all meetings
2. Office groceries
3. Training of officials
4. Transportation
5. Overtime
6. Advertising fees – limited to notices and adverts
7. Internet usage – be limited to government websites
8. Printing cost – centralization of printing and limit colour printing
9. Matjhabeng News
10. No new appointments
11. Procurement of furniture
12. Telephone usage (both landlines and cell phones)

The above austerity measures have been reviewed by analysing cost driving votes, this measure will ensure that all non-priority spending are eliminated.

**Capital Expenditure**

The Capital Budget for the 2017/18 financial year is R 181 216 000. The sources of funds for the capital budget are as follow:

Municipal Infrastructure Grant	R 121 216 000
Water Services Infrastructure Grant	R 30 000 000
Integrated National Electrification Programme	R 5 000 000
Own Funding	R 25 000 000

**Long-term Debt**

Section 46 of the Municipal Finance Management Act, No 56 of 2003 clearly states the requirements and process for obtaining long-term financing. The municipality anticipate to obtain long-term financing for the purpose of capital expenditure.
